### THE PRESIDENT IS SERENADED.

Enthusiastic Multitude Gathers on the Famous McKinley Lawn—He Patiently Awaits Returns.

(A. P. NIGHT REPORT.)

CANTON (O.) Nov. 5.—The McKinley lawn, so famous in the campaign of 1896, was tonight the scene of an enthusiastic demonstration, similar to that which closed the campaign of four years ago. The President was prevailed upon to depart from his rule, which, in the face of much pressure, has been inflexible all through the campaign, and he made a short address to his neighbors and fellow-townsmen, free from partisanship, but apropos of the election tomorrow. He also introduced Judge Day for a short speech from the famous front porch.

The occasion was an unadvertised and unannounced serenade by the "Grand Army Band" with several thousand people following the band with cheers and hurrahs, and a glare of red fire that illuminated the whole scene about the McKinley home. The band appeared upon the streets some time after dark, and the report that the President was to be serenaded spread like wildfire. First a score fell in behind the band, then another score, then hundreds, and finally, by the time the McKinley home was reached, thousands. Somewhere, no one knows how, a supply of red-fire torches was secured, and they were waving at their height when the band appeared.

Two or three selections were played in the street in front of the house, and then the band was invited to the front of Mrs. McKinley's parlor for another selection. After each number there were calls for the President, and finally he appeared on the porch. He bowed to the crowds in front of him and to his right and to his left, amid deafening cheers. There were calls for a speech, and some one pulled from the vestibule of the house a relic of the campaign of four years ago, a Tennessee stump, with polished top and engraved emblem, brought here by a Tennessee delegation. The President stood upon this and spoke as follows:

"My Fellow-citizens: I am very glad to greet you once more at my old home. This is not a year when I am making speeches. Tomorrow, from one end of the vast country to the other, the American people will speak [applause] for William McKinley [tremendous and long-continued cheers], and we must wait reverently and in patience for their verdict.

"I know you will be glad to hear a word from our fellow-townsmen, Judge William Day, who has held a conspicuous place in the administration over which you called me to preside in 1896. I thank you, and bid you good-night." [Tremendous applause.]

When the President mentioned the name of Judge Day there was another enthusiastic ovation, and the Judge was constantly interrupted by applause while he spoke.

### TEDDY'S CAMPAIGN CLOSED.

NEW YORK, Nov. 5.—Gov. Roosevelt wound up the Republican national campaign tonight by delivering an address at Oyster Bay, L. I., before one of the largest crowds that ever assembled at that place. Prior to the meeting there was a parade, led by five bands.

### EMPIRE STATE A BATTLEGROUND.

Republicans Concede the City and Democrats Give Up the Other Part.

(BY THE NEW ASSOCIATED PRESS—P.M.) NEW YORK, Nov. 5.—Everywhere confidence is expressed that a full vote will be polled, and Republicans and Democrats alike agree that more than 60,000 citizens in Greater New York will vote tomorrow. Indications are that the vote in the city will be at least 65,000 larger than ever before in the history of Greater New York. Generally speaking, Republicans con-

cede that Bryan will carry Greater New York. On the other hand, Democrats admit that McKinley will carry the State, if Greater New York is excluded. The difference of opinion arises on the question of the pluralities that the Democrats are conceded in the metropolis and the Republicans are conceded in the up-State districts.

Richard Croker claims that Bryan will carry Greater New York by between 50,000 to 60,000. As a general rule, the borough of Manhattan will be carried for Bryan by more than 20,000 plurality. Both sides claim the borough of Brooklyn, the Republicans by 12,000, the Democrats by 8,000. The population in the boroughs of the Bronx, Queens and Richmond is relatively small. Democrats and Republicans claim all three boroughs, but the Democrats usually carry Queens and Richmond, and the Bronx, the increase

in population, owing to the new uptown movement, has been so great that all estimates are worthless, the population in some districts having doubled. It will probably give a decisive majority either way.

Democrats are inclined to concede the State outside of Greater New York to McKinley by 50,000. This is 100,000 less than the Republicans allow McKinley in the same territory.

Chairman Odell, Republican candidate for Governor, is at his home in Newburgh. He will receive returns at his home, and will not return here until Wednesday. Before leaving he said that he had nothing to add to his statement that McKinley would carry New York State by 100,000, Greater New York included.

There was very little betting done tonight on the election. The odds dropped to 2 to 1 on McKinley toward the latter part of the evening, and remained there.

DEWEY'S ESTIMATE. (BY THE NEW ASSOCIATED PRESS—A.M.) NEW YORK, Nov. 5.—Senator Dewey, who returned today from a trip to rural New York, is of the opinion that the Republicans will come down to the Harlem River with 185,000 plurality.

PACIFIC COAST REPUBLICAN. California May Show Some Changes in Respect to Congressmen.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, Nov. 5.—[Exclusive Dispatch.] It is very difficult to get an accurate estimate of the Congressional districts in California. Chairman George Stone of the Republican State Central Committee claims all seven Congressmen for the Republicans, and declares that his figures from the party managers in the various districts fully justify his claim. But there are other experts, good Republicans, who are not so sanguine. These men declare that the Republicans are sure of First, Third, Fourth and Fifth districts, but they express doubt in regard to the Second, Sixth and Seventh.

One man who has made a special study of the State said today: "Sprout, the Democrat, in the Second District, is a popular young fellow who has made a very active canvass. He has not yet been defeated, and has made an excellent impression, while Wood, the Republican candidate, who is an old man, has been unable to keep up with his younger rival. From the reports I fear Sprout will get a majority."

### MCKINLEY ADDS TO FORMER STRENGTH.

CHICAGO, Nov. 5.—The following statement was given out at the headquarters of the Republican National Committee:

"There are few surface indications at this time dissimilar to those of four years ago, when McKinley swept the country by the greatest majority probably ever given to a Presidential candidate. The work of the Republicans during the past four weeks has been marvelously effective. It has been marked everywhere by completeness in detail of machinery, harmonious action and desired results. In the history of the party no better organization has ever existed. McKinley will carry every State which voted for McKinley and Hobart four years ago, and certainly seven or eight others that voted for Bryan in 1896.

"The alleged hopes of Croker and Bryan as to carrying Indiana and New York are simply following out the programme of claiming everything in sight for the purpose of encouraging their followers in close States to make the most desperate efforts for success. The claims of the Republicans are based upon the results of actual work reported by men in the field, brought up through precinct, ward, township, city, county and State organizations and upon actual facts, as shown by the closest poll ever made by any organization."

### JIMKAY JONES'S JAUNDICE.

CHICAGO, Nov. 5.—Chairman J. K. Jones of the Democratic National Committee gave out the following on the outlook on the eve of election:

"I have no doubt that the result of the election tomorrow will be the triumphant election of Bryan and Stevenson.

"The Democratic party has appealed in this campaign to the reason and conscience of the people, while the Republicans have appealed to the passion and prejudice. In the great forum of public opinion I have no doubt the Democratic party has won in this the greatest of its national political struggles.

"Four years ago the Democratic party was deficient in organization, whereas now it is perfectly organized and more efficient than it has been in any campaign. The National Committee has been in touch with every part of the country, and is familiar with all the details of the work. While the campaign fund has not been enriched by the contributions of great trusts, it has received the patriotic mites of the great working classes in sufficient quantities to defray the expenses of the campaign, which is more satisfactory than it had been otherwise.

"The country is now aroused as it has never been before since the great Civil War, and the result can be nothing less than the triumphant election of the national Democratic ticket."

No Opposition in South Carolina—Negroes Have Been Cut Out.  
BY THE NEW ASSOCIATED PRESS.—SOUTH CAROLINA (S. C.), Nov. 5.—The Republican leaders here are confident that McKinley will carry every Congress District in South Carolina. They say that the Negroes have been cut out of the race, and that the white population will vote for McKinley.

**PENNSYLVANIA BIG AND STRONG.**  
McKinley's Plurality Will Be Reduced by the Fight Against Quay.  
PHILADELPHIA, Nov. 5.—Very little interest is manifested relative to the vote of Pennsylvania in the Presidential election. The big Republican majority is conceded even by the Democratic leaders. Four years ago McKinley's plurality in the State was 236,707, of which Philadelphia furnished 113,119. The highest percentage of the vote for a Presidential candidate was 135,339 for Grant in 1872. In 1892 Harrison's plurality was 62,747. McKinley's plurality of four years ago will no doubt be considerably reduced through the return to their party of many Democrats who opposed Bryan in 1896, and it is thought also that McKinley's vote will be reduced to some extent on account of the fierce contest of the Quay and anti-Quay Republicans. The anti-Quay men in Pennsylvania today are feeling that the Quay faction is the danger to McKinley's success. The Quay men are divided into two camps, the Quay and anti-Quay. **MINNESOTA, Michigan, North Dakota, Wisconsin and Others Safe.**  
BY THE NEW ASSOCIATED PRESS.—MINNESOTA (Minn.), Nov. 5.—The election of McKinley electors seems assured, but the Democratic State Committee is expressing a belief in the possibility of Bryan carrying the State, without actually claiming the Republican place the McKinley plurality at from 6,000 to 8,000. The election of Gov. John L. Scott over Capt. Van Sant is claimed by the Democrats by over 20,000, which is the figure given by the Republicans in their claim for Van Sant. The result for Governor will undoubtedly be close. The Republicans will elect the balance of their State ticket down to railway commissioner, for whom the McKinley plurality is a strong fight, making the result doubtful.  
**FOR CONGRESSMEN.**  
BY THE NEW ASSOCIATED PRESS.—MINNESOTA (Minn.), Nov. 5.—The Legislature will probably be Republican, but the Democrats claim a certainty of gains. Republicans claim seven Congressmen, but the Democrats confidently expect two, and perhaps three.  
**NORTH DAKOTA.**  
STATE TICKET RUNS BEHIND.  
FARGO (N. D.), Nov. 5.—Neither committee has any changes to make in its estimates. McKinley, it is claimed, will carry the State, but the Republicans claim a plurality of 10,000 or 15,000 votes will make the majority rather uncertain.  
**MICHIGAN.**  
SENATOR MCMILLAN CONFIDENT.  
DETROIT (Mich.), Nov. 5.—Both parties in Michigan are confident of success tomorrow. Mayor Maybury of Detroit, Democratic candidate for Governor, and Col. Bliss of Saginaw, his Republican opponent, are making statements today, in which each confidently asserts that he will be elected.  
**WISCONSIN.**

MILWAUKEE, Nov. 5.—Indications point to Republican success throughout Wisconsin. Even the Democratic press concedes the State to McKinley.  
**NORTH CAROLINA.**  
TWO DISTRICTS DOUBTFUL.  
RALEIGH (N. C.), Nov. 5.—The Democrats are confident of victory in all but the Eighth and Ninth districts. These are doubtful, and both sides are putting forth every effort to carry them. If there is any trouble at all tomorrow, it will probably be over the Senatorial contest, which is hot and bitter.

ST. LOUIS, Nov. 5.—The Democrats expect the utmost confidence in their ability to elect Congressmen. Alexander M. Donohy Governor, by a plurality of 10,000 and more, and of giving Bryan a majority of from 6,000 to 8,000. The Republicans are equally confident. It is generally conceded by the members of both parties that tomorrow's vote will show surprising changes.  
**THE TWO CHAIRMEN.**  
ST. LOUIS, Nov. 5.—J. M. Seibert and Thomas J. Adkins, chairman respectively of the Democratic and Republican State committees, reiterated the predictions made last night, and their respective followers express the utmost confidence of their fulfillment. QUAY FACTION ENJOINED.  
PHILADELPHIA, Nov. 5.—On the application of O. F. A. Hartman, candidates of the Democratic and Municipal League parties for City Treasurer and Register of Wills, Judge Audenried today granted an order restraining the commissioners of Philadelphia from issuing a new set of ballots for this city with the circle at the top of the Municipal League columns omitted. The opposition to Hampton Moore and Lacombe Singer, candidates of the Republican party for City Treasurer and Register of Wills, is as well as opposition to legislative candidates of the Quay faction of the Republican party, led to a fusion movement among anti-Quay Republicans and Democrats for these offices. **HIS LAST DAY AS SPELLBINDER.**  
Bryan Pleads with the People of Nebraska to Vote for Him.  
BY THE NEW ASSOCIATED PRESS.—HASTINGS (Nebr.), Nov. 5.—It was yet half an hour to dawn when the Democratic candidate began the last day of his tour. He had commenced the first speech of the day before sunrise. Last night he told the newspaper correspondents he expected to put in sixteen hours today, and whether he would be able to do so, he could not say. He would start on his tour at 8:45 o'clock this morning. When he reached the depot of the Burlington Railroad, his special train, ready for him, was waiting. Exeter was reached at 7 o'clock. As the train drew into the station a large number of people were drawn up along the railroad track. Bryan was escorted to a public hall near by, where he made his first speech. The hall was quite large, but was filled to overflowing. The speech was very little different from Bryan's speeches to the agricultural communities in other parts of the country. On trusts, Bryan said: "I want you all to vote early. When you get up on election morning it will probably be dark. You will have to light a lamp, and just remember that you are using oil furnished by the Standard Oil Company, and that the Standard Oil Company is paying this year a dividend of 10 per cent. on its capital of \$100,000,000 of capital, and the Standard Oil Company is prospering under the present administration. But look at the prosperity of the Standard Oil Company while your lamp is burning and compare it with the prosperity of the farmer. Then you will remember that the price of coffee is controlled by a trust, and when you drink your coffee, remember that it is controlled by a trust, and if you have crackers, remember the National Biscuit Company. You will find that there is hardly a thing that you use that a trust does not control. I promise you that if I am elected, every power will be used to make it impossible for a private monopoly to exist in the United States."  
Fifteen-minute stops were made in Fairmont and Harvard, and in both places he made speeches along the general lines to good crowds. "Bryan urged his audience at Fairmont to vote early. 'I want you,' he said, 'to make the majority in this State as large as possible, because the other States are going to do so well. I don't want Nebraska to be behind.'"  
At Harvard there were a great many gold badges in the crowd which protected the speaker from the crowd. There were more than at most places. Speaking of the government of Porto Rico, Bryan said: "We are today taking the Porto Ricans without representation, and governing them without their consent. We have sent a carpet-bag Governor down there, and we pay him \$3000 a year. That is, we fix the salary and we make them pay it down there. In this State we pay our Governor \$2000 a year. These people in Porto Rico are today in exactly the condition our colonists were 123 years ago, and I do not see how a Republican can vote to approve that Porto Rican bill and at the same time praise our forefathers for what they did 123 years ago. The Republican party is trying to do in Porto Rico the same thing that England did here, and the same that England is now doing in India."  
IN HIS HOME CITY.  
LINCOLN, Nov. 5.—With the exception of one speech to be made at Omaha tonight, Bryan completed his Presidential campaign tour of this year with a speech in his home city at 8 o'clock this evening. He returned here at that time from a twelve-hour tour of the interior of the State, and proceeded immediately to the People's Square, delivered a speech of about thirty minutes' duration to his townpeople.  
Bryan seemed entirely satisfied with the audience that greeted him everywhere in his own State. Many of the places at which he spoke are Republican in sentiment, but in all cases the crowds were large in proportion to the population, and in most of them there was a high degree of friendly interest manifest.

**STEVENS CONFIDENT.**  
SPEAKS AT HIS HOME TOWN.  
BLOOMINGTON (Ill.), Nov. 5.—Adlai E. Stevenson arrived home last night and spent today quietly with his family. Tonight he will be the principal speaker at the Coliseum, talking an hour on the question of imperialism. Stevenson's reception by the audience was a great ovation.  
Stevenson has spoken continuously for six weeks, in ten States, and he said tonight that he was confident of the election of Bryan and himself. He will vote early tomorrow and will receive the returns at his home in the evening.

Mrs. Binford Released on Bail Murderer King Sentenced. Keswick Victims.

(BY DIRECT WIRE TO THE TIMES.)  
PHOENIX (Ariz.), Nov. 3.—[Exclusive Dispatch.] Defending herself from a half-breed robber at her home this evening, Mrs. Lena Peterson emptied both barrels of a shotgun into the body of her assailant, killing him instantly. The verdict of the Coroner's jury freed her of blame and attributed her action to self-defense.

About 8 o'clock tonight, after her husband had gone upstairs, Mrs. Peterson heard a disturbance and went downstairs. Finding her husband's gun on the table, she picked it up and went to the door. She called again and he ran for her. She stepped back and fired as he almost reached her. He fell forward and she went into the house, put away the gun and called the neighbors, who found the Mexican dead. His right side was almost torn away.

The dead robber was identified as Ventura Pace, and was a half-breed Indian and Mexican blood. Pace had been released from a long jail term today, and by the side of the fence at the Peterson home was found a bicycle which he had stolen and ridden to the scene of his death.

MRS. BINFORD OUT ON BAIL.  
HARRIS LAUGHS AT TROUBLE.  
(BY DIRECT WIRE TO THE TIMES.)  
PHOENIX (Ariz.), Nov. 3.—[Exclusive Dispatch.] The United States Commissioner this morning Mrs. C. M. Binford waived examination and was bound over to the grand jury. Her husband was released to \$500 and she was released on cash security, furnished by W. H. Constable, ex-Paco, Tex., traveling salesman, a friend of her husband. She is with the latter at the Commercial Hotel. He says she will return to Los Angeles and she will institute divorce proceedings after her trial.

Harris will have a hearing Wednesday. He is in a jovial mood and laughs at his predicament. "I may go to the penitentiary," said he tonight, "but I can console myself by thinking that I've had a good time, and that Claire will go also. It's all nonsense about me hypnotizing her. She is as much to blame for this trouble as I am. I'm sorry on my wife's account."

Harris apparently enjoys himself at the jail, reading love stories, smoking and joking with officers and visitors while awaiting the arrival of his wife, who is expected tonight, to furnish his bond.

Severe Earthquake Shakes Felt at Cacho—Mud Holes Disturbed.

(BY THE NEW ASSOCIATED PRESS.—P.M.)  
LATHROP, Nov. 3.—Several distinct earthquake shocks were felt in Cacho today. The first shock, which occurred at 2 o'clock p.m., shook some of the largest buildings in the town. At 2:30 o'clock p.m., another shock equally as severe was felt and shocks continued at brief intervals until 4 o'clock. At 4:30 o'clock this evening the severest shock of all was felt, followed several seconds later by a loud report, which made windows rattle. In several sections of the town chimneys and old walls toppled down. A strange feature of this visitation of tremors is the violent disturbance of the mud volcanoes located near here. They immediately became violently active, belching forth mud and warm vapor. Their ordinary roar can be heard miles away. Much mystery surrounds this subterranean disturbance.

The Cases that Pyramid Pile Cure Will Not Reach.

The cases that Pyramid Pile cure do not reach are so few that physicians are doing away with operations for piles and depend more and more upon this simple but safe and effective remedy to accomplish a complete cure, and it never disappoints in any form of piles, whether protruding, itching or bleeding.

Dr. Thomas, of 1817 St. Sacramento, Cal., writes: "I afford much pleasure to state that after using only one box of Pyramid Pile Cure I was cured of the painful and annoying disease, after having suffered from piles for thirty years and tried everything and could only get temporary relief. I was advised by two of the best physicians in California to have an operation, and I did and suffered almost death, but the piles returned and my suffering at times was so great I was not able to walk until I saw an advertisement of the Pyramid Pile Cure. I got it at once and was relieved from the first application. I am so grateful that I feel recommending it to any and everyone afflicted with piles."

The prompt relief and rapid cure which follow the use of this remedy gave the impression that possibly it might contain opium, cocaine or some similar drug, but a careful and frequent analysis of the remedy has proven it to contain no injurious drugs whatever, but it cures by the action of its own powerful healing oils.

The Pyramid Pile Cure is sold by druggists everywhere at 50 cents for full sized package.

Each package contains a little book on causes of piles, together with testimonials from thousands of cured patients from every part of the United States and Canada.

(BY THE NEW ASSOCIATED PRESS.—P.M.)  
SAN FRANCISCO, Nov. 3.—An important decision constraining a provision of the bankruptcy law was rendered today by the Circuit Court of Appeals in the case of A. P. Scheld, a Sacramento bankrupt. The court held that as a policy of insurance was made payable to the bankrupt, it is not exempt from exemption, but passes into the hands of trustees in bankruptcy on cause of the creditors. An attempt by Scheld to withhold such a policy from exemption was defeated.

Court Decides Market Figures Must Be Given Out Without Discrimination.

(BY THE NEW ASSOCIATED PRESS.—P.M.)  
CHICAGO, Nov. 3.—A decision rendered by Judge Vail in the Circuit Court here today, is declared that the Chicago Board of Trade market quotations are a public interest and must be distributed without discrimination. The decision was rendered in the case of the Chicago Board of Trade vs. the Central Grain and Stock Exchange, the board having asked the court to dissolve the temporary injunction restraining it from withholding its records from the defendant, alleging said defendant to be a bucket-shop. In ruling against the Board of Trade, Judge Vail made the injunction perpetual. Sixty days are allowed the attorneys for the board to prepare a bill of exceptions to be carried before the Appellate Court.

In strict sense of the term the court finds that the Central Grain and Stock Exchange is not a bucket-shop, the records brought into court showing that it was a bona fide exchange, and had actually been received and delivered.

Under the decision the board must furnish quotations to any interested party for a consideration. The board, it is held, is not a proper judge of the legality of the use, that being a matter for the consideration of the court. Should the court find a concern receiving the board quotations to be a bucket-shop, the board may then under the Illinois statutes, withhold the quotations.

Death was the result of a bite from a skunk three months ago. When brought in here by a physician last night, he was pale and haggard. He talked freely for a while, and remarked he was sure to die, and that nothing could save him.

A few minutes later he was seized with a fit which was ended about every two hours until his death this morning. With each attack he was

She has been staying at the Palace of Cascaes and was on the beach watching her boatman, Croom, bringing her boat in to shore. Suddenly a huge wave overturned the boat. Croom's arm was broken and he was overcome by the undertow, which carried him beneath the waves."

"The Queen is an expert swimmer. Seeing that her boatman was drowning, she sprang into the sea before any of her attendants could prevent her. With rapid strokes she swam to the boatman's side and held him up until persons pulled in boats and rescued both the Queen and her boatman. Croom was taken to the royal palace."

# BIG CANAL PROJECT.

Russia Plans to Connect the Baltic and White Seas—Will Prevent Any Blockade.

(BY THE NEW ASSOCIATED PRESS.—P.M.)  
NEW YORK, Nov. 3.—A dispatch to the Herald from Berlin says it is learned that in a few days there will be published plans of a new canal of the greatest importance to be built in Russia.

It will connect the Baltic and White seas running from St. Petersburg along the Finnish Gulf of St. Catherine, the new naval harbor of the Murman coast. The new river, now seven meters (about 23 feet) deep, will be deepened still more, and the canal will run from it to Lake Ladoga in Northwest Russia.

The choice of these plans from the military point of view, is that they will enable the Russian Baltic fleet to escape should a blockade ever be attempted on that side of the empire. The distance from St. Petersburg to the important seaport of Libau on the Baltic will be greatly shortened. This will be part of the new canal's commercial significance.

# M'LACHLAN, GRAVES AND "THE TIMES."

THE TIMES was opposed to the nomination of James M'Lachlan for Congress, and said so in proper terms, at a proper time and in a proper way. We opposed his nomination as not being, in our judgment, either strong, judicious or expedient. In that action we were strictly within our rights as individuals, as Republicans and as journalists. We advised against the nomination for the good of the party and for the best interests of the public service, as we view them. In advocating a stronger, more fit and more popular Republican nomination, we desired, first and all, to avert the possibility of Republican defeat later on. We took this position out of an abundance of precaution, "with good motives and for justifiable ends," as the lawyers would say, and "for the good of the order," so to speak.

Our advice and admonition proved to be without avail. The stakes had been too firmly set and the cards too thoroughly shuffled to make the selection of any other candidate possible. The combine of consolidated party "workers" was too strong to be resisted; the great body of Republicans were convinced and yielded for the sake of party harmony and the consideration of securing a Republican Congress; though scores and hundreds of good men in the party heartily desired a different result, and will vote today with great reluctance for the nominee.

We never disputed the province or the power of the convention to make that nomination; we only deplored its action.

For the part taken by The Times in opposition, which we regarded in the outset, and still regard, as justified and justifiable, it has received a good deal of cheap abuse at the hands of creatures of low degree and not of one party alone.

The candidate and some of the delegates to the nominating convention took deep offense at our course, indulged in gross personal vituperation, threatened the adoption of a resolution in the convention against The Times, and unwarrantably accused much bad blood over the matter. It was openly charged in some quarters that M'Lachlan must be nominated to spite and punish The Times; and it was loudly and persistently proclaimed by his personal supporters and familiars that the support of this journal was not wanted; that it was "deadly" to the cause; that we were doing all that by without discussion and with contempt. The abuse of such creatures and of their employers we have encountered before, and still live, unscathed. We have a duty to perform to the people and to ourselves in the conduct of the Los Angeles Times. From the performance of that duty we cannot be driven any more or any further today than in like cases in the past.

The independence, self-respect and self-reliance of this journal is dearer to us than are the mere personal interest or the private or political fortunes of any man or any candidate; not essential to the triumph of a great cause or of a vital principle. We make this declaration in the face of the probable outcome of today's Congressional contest, and stand ready to meet the consequences, whatever they may be.

In the Congressional campaign closing today The Times has treated Mr. M'Lachlan with the same courtesy and respect which it has accorded to his election; but it has reported his speeches, published his speeches more or less in extenso, and exploited his views, his various explanations and his personal defenses. It has not only named him, but it has named his nomination as the Times criticized him, gave in one instance, and that was when he persisted in attempting to placate a notoriously hostile audience, whose members he ought to have known were his political enemies, and who detested his opinions and feared his utterances, except when he attacked The Times, and then they cheered in approval. The Times was right then, at the point of view, the candidate himself is reliably quoted as having admitted his mistake in going before the Socialist gang, declaring that he could do nothing with that sort of people. They actually shouted him down when he attempted to talk Republicanism.

Whatever the outcome may be today we make no apology for our course in that regard; but, on the contrary, justify it and are justified by the facts and the circumstances of the case.

There is every reason for believing that Mr. M'Lachlan will be elected to Congress. The result could hardly be otherwise after the amazing weakness shown by the Democrats in choosing their candidate. The Democratic nomination was a result notoriously achieved through the combined action of the "workers" of both parties, joined in politics for personal ends. James M'Lachlan is fortunate in having pitted against him such a nominee as William Graves, with his conspicuous lack of strength, particularly in the southern and more popular portions of the district. This fact places his failure beyond the bounds of reasonable doubt, even though his Republican opponent is that candidate who was once so badly beaten in the district.

The attitude of The Times toward Mr. Graves has heretofore been unmistakably stated, and our opinions, expressed immediately after his nomination, are reproduced today. Our stand toward his candidacy remains unchanged.

Whatever the result of today's contest—and the result will almost certainly be the election of James M'Lachlan—The Times has no intention of either claiming or acknowledging any controlling part in that result. If Mr. M'Lachlan is elected, his supporters are welcome to all the credit of the victory; and if he is defeated, which is apparently impossible under the circumstances, The Times will acknowledge no responsibility for the defeat. In its capacity of an independent Republican journal, under the control of its owners and managers only, it did its part in the contest by advising and urging the selection by the delegates of the best, the strongest, the most capable Republican in the district to represent it in Congress. We could do no more, and duty commanded us to do no less.

We failed; M'Lachlan's nomination was forced under the lash of the brain-slavers; and now the responsibility for his election rests heavily upon the misguided men who forced his nomination against what was unquestionably the best judgment of numbers of

the soundest and truest Republicans in the district.

THE DEMOCRATIC BLUNDER.

[On the 8th of September The Times printed the following editorial, which is now reaffirmed:]

The Democratic nominee for Congress in the Sixth District is Mr. Graves of San Luis Obispo.

Ex-Senator White, as is well known, had refused from the outset to stand for the nomination, and to the last he adhered to his determination. Gen. Mathews, the next most available man suggested, likewise refused to be a candidate.

Under the circumstances, the result was inevitable. Our political antagonists failed in their effort to secure the nomination of their strongest man, as well as their second strongest man, and were compelled to fall back upon the choice of an obscure man, with no acquaintance throughout the district, and no special fitness for a Representative in Congress.

Mr. Graves is a Democratic partisan whom it will, of course, be impossible for Republicans to support. Being an adherent of political fallacies offensive to Republicans of conviction, he cannot expect support from the party of Lincoln, Grant and McKinley.

Being a free-trader and not a protectionist, Republicans cannot vote for him. Being an anti-expansionist, an opponent of the war policy of the administration, and not a known defender of our armies engaged in the glorious task of holding aloft the flag of the republic in the despotism of Spain, Republicans cannot endorse him.

Being, or having been, an attorney of the Southern Pacific Company, and hence in the camp of that proved antagonist of so many of the best interests of the people of California, all citizens who would free the State from the tentacles of that corporate monster must oppose the candidacy of Mr. Graves.

Being a known friend of that vital public project, the San Pedro Harbor, so essential to the commercial interests of the people of this district, the citizens of Los Angeles and of the populous southern region must look askance at the gentleman from San Luis Obispo.

Having achieved no recognized position in public affairs which warranted his nomination by even a Democratic convention for the important office of Representative in Congress, Mr. Graves cannot be looked upon with confidence by responsible citizens possessing a full and intelligent appreciation of the necessity which exists for always having the district ably represented at Washington.

These and other facts in the case of the Democratic nominee prove how serious a blunder the Democratic convention made, and they confirm the Times in its original determination, from which it has never swerved, to oppose any and every anti-administration nominee for Congress, particularly in this Presidential year, when the present and the succeeding administration of President McKinley need and deserve the support of a Congress of its own and our own political faith.

Mr. Graves should be defeated.

POLITICAL POINTS.

An Xmas Gift. (Cleveland Plain-Dealer.) Mr. Bryan's supporters ought to be able to see "The Last Battle" out in time for the holiday trade.

Only Half Converted. (Pittsburgh Dispatch.) A New York woman dreamed that Bryan will be elected and has convinced her husband, but not the betting odds.

Two of a Kind. (Rochester Herald.) Mr. Cleveland's good friend Benedict announces that he does not intend to vote this year. Perhaps he has paired with the sage of Des Moines Bay.

He is a Quack. (Omaha Bee.) If Dr. Bryan failed so signally four years ago to diagnose the political case, what assurance have the people that he is any nearer correct in 1900?

They Don't Scare. (Kansas City Journal.) The sawdust has been pretty thoroughly pounded out of Mr. Bryan's bugle man. Voters positively decline to become frightened at either "imperialism" or "militarism."

Didn't Materialize. (N. Y. Mail and Express.) It seems to be generally conceded that the Democratic attempt to lug the young man Abraham into the campaign was a large and dismal failure.

Prosperity's Deluge. (Omaha Bee.) Nebraska farmers will not have to burn corn for fuel this year. McKinley prosperity has opened the market for every "bumper" crop at prices seldom before equaled.

SOUTHERN PACIFIC RUMOR.

Huntington Said to Contemplate Resigning Vice-Presidency Because of Hay-Tweed Denial It.

[BY THE NEW ASSOCIATED PRESS.—P.M.] NEW YORK, Nov. 5.—Rumors were received today that H. E. Huntington contemplates resigning from the vice-presidency of the Southern Pacific Company because, it is stated, he is dissatisfied with the election of the new president, Charles M. Hays.

Chairman Tweed characterized the rumor as absurd, and declared that no member of the board had more heartily approved Hays's election than Huntington.

## SUMMARY OF THE DAY.

In a message submitted to the Council yesterday, the Mayor makes some recommendations regarding the disposition of the interest and sinking fund monies which have accrued on the first two-fourths of the \$2,000,000 water-bond issue. He urges that the bonds be retired and the money used in building an infiltration gallery.

At the suggestion of President Silver the Council yesterday took steps to remove the cloud from the water-bond issue. It is probable that a test suit will be brought at once.

The Chief of Police has a unique communication pending to give information of a plot to assassinate H. Gaylord Wilshire, Social Democratic candidate for Congress. In line with his plot, the Chief has been suggested that possibly it was prepared with Wilshire's consent.

At the request of the City Engineer, the Council yesterday voted to set aside \$2000 for placing steel ribs in a section of the Third-street tunnel.

## AT THE CITY HALL.

### WATER PROBLEM DISCUSSED.

### The Mayor Outlines His Plans Regarding the Proposed Bond Issue.

Continued litigation has prevented the city from disposing of the \$2,000,000 of water bonds voted at an election held on August 23, 1929. It has likewise prevented the city from acquiring by amicable agreement or condemnation proceedings the plant of the Los Angeles Water Company. Mayor Eaton has devised a plan whereby the interest and sinking fund collected on the bonds of the water company can be devoted to the purpose of constructing improvements in the headworks. His views were embodied in a message to the Council, which was by that body referred to the Water Supply Committee.

In his message the Mayor says, in substance, that there is now in the city treasury \$125,263.97, to the credit of the fund created to provide for interest and sinking fund on the last issue of bonds, amounting to \$4,500,000, matured on the last, and will doubtless be retired by the Council, continuing the plan of the water company.

The Mayor stated in the message that it seems plain to him that this money should be put to some use, and that only two methods have been proposed, either in the form of a loan or in the form of a bond issue. He concludes that the latter course is impossible, and the question is whether the money should be used to carry this debt into the hands of the city, without benefit to anyone except the depositor, \$125,263.97.

to supply all requirements until the further extension of the infiltration system can be completed.

The first 2000 feet of the infiltration gallery will not be subject to overflow from floods and the work can be carried on during the winter. The next 2000 feet beyond lies in the river bottom and work upon this portion can be carried on only during the summer. If the contract for the construction of the infiltration gallery is let within the next sixty days, the entire 4000 feet can be completed before the flood season of the winter of 1931-2.

The Mayor says the time is not far distant when the city will be threatened with an actual shortage of water unless the present supply is increased, and the proposed infiltration gallery will be needed. He concludes with the assertion that the extension and pledges of the political parties of the city in their conventions held in 1929, and the unprecedented vote in favor of issuing the bonds, shows that the sentiment of the citizens of Los Angeles is strongly in favor of the construction of the proposed works.

At the suggestion of President Silver, the Council yesterday took steps to clear the \$2,000,000 issue of water bonds of the cloud that has hung over it since the election on August 23, 1929.

The test suit brought to determine the legality of the 1929 school bonds involved the points in dispute, but that case, owing to an error in the proceedings, was decided without determining the mooted questions.

The form of the bonds issued in the bond election, the provision about payment in "gold coin or currency" and the debt limitation of the city are questions which the city officials were anxious to secure an opinion from the Supreme Court. Being unsuccessful in securing an opinion in the first instance, another test suit will be prepared. President Silver's resolution, which was unanimously adopted, was as follows:

**SILVER'S RESOLUTION.**  
Resolved, That the City Attorney and associate counsel for the city be instructed to forthwith institute such legal proceedings as will determine in the most speedy and comprehensive manner the legality of the existing issue of water bonds.

**THEATRICAL PLOT.**  
TO BLAUGHTER WILSHIRE.  
He who sows must also reap. The dissemination of distrust and discontent brings its reward. Can it be possible that the City of Los Angeles, a city of peace and good will, should be the scene of a theatrical plot, a plot to blight the life of a man who has done so much for the city?

If his friends are him closely guarded by stalwart policemen they need not fear that he is to enter duress vile. It will be a carefully mean that the device of gold, the bludgeon of the Social-Democratic candidate for Congress from the Sixth District, is to suffer the rigors of close confinement in the city jail.

Chief Elton has a communication that explains the whole matter. In the dim light of the night the plot was deep-dyed plotter was troubled. The plot was disclosed. A typewritten copy of the plot was sent to the Chief. Before the communication was finished, however, the twinges of conscience set in, so that the villain did not feel free to sign his name.

Therefore it is naively suggested that Wilshire himself or some of his equally honest adherents may have played the role.

The tragedy was cast for three blood-thirsty desperadoes—imported villains from the States. At 8 o'clock on the morning of August 23, last Sunday morning these men were to enter Wilshire's water-bond office, plant a dagger to the heart of the flamboyant statesman, and offer him as a sacrifice on the altar of the "liberty of labor." So says the plot.

This plot failed to work. Strange as may seem, the police force was not out on the night of the plot. The plot was disclosed. A typewritten copy of the plot was sent to the Chief. At 8 o'clock on the morning of August 23, last Sunday morning these men were to enter Wilshire's water-bond office, plant a dagger to the heart of the flamboyant statesman, and offer him as a sacrifice on the altar of the "liberty of labor." So says the plot.

This plot failed to work. Strange as may seem, the police force was not out on the night of the plot. The plot was disclosed. A typewritten copy of the plot was sent to the Chief. Before the communication was finished, however, the twinges of conscience set in, so that the villain did not feel free to sign his name.

as to the disposition of the copies and the matter was referred to a committee.

Sweeney & Hill were granted an extension of ninety days in which to complete the Third-street tunnel and Charles Stansbury was granted sixty days in which to complete the improvement work on Lake Shore avenue.

The Council allowed the claim of Frank M. Fowler, an ex-policeman, for \$115 due him for services while under suspension on charge of which he was later exonerated. Mr. Fowler stated that the \$115 was the only claim he had against the city directly.

The curfew ordinance, making it unlawful for minors under 17 years to be on the streets after 9 o'clock p.m., and holding the parent or guardian responsible, was passed.

ANOTHER APPROPRIATION.  
City Engineer Olmsted came before the Council yesterday to secure an additional appropriation of \$2000 for strengthening the walls of the Third-street tunnel. He said that by the end of the year the bridge being 18 and the groom 21 when they ventured into matrimony. The court's decision yesterday was in favor of the plaintiff, Mrs. Daisey Savage, against Francis Savage, on the ground of extreme cruelty.

## MOVING ON TO A BASIS.

Conger Says Negotiations Progress.

Peking Ministers Work in Harmony.

Military Congress at Tien-Tsin. Chinese Not Resisting Advance of Allies.

(THE NEW ASSOCIATED PRESS—A.M.)  
WASHINGTON, Nov. 9.—Minister Conger's latest advice to the State Department indicates that satisfactory progress is being made by the minister at Peking toward the arrangement of a basis upon which negotiations shall be had with the Chinese government for a final settlement. The minister passed upon the question of punishment to military officers upon several other important points, which are to be taken up in the negotiations. The results have not been made public. The Russian minister is reported to be participating actively in the negotiations, and the proceedings are harmonious.

As far as these have been confined to the effect to secure a permanent agreement by all the ministers upon the basis of negotiations, and up to this time no effort has been made to deal directly with the Chinese government. It is the understanding that when the ministers have agreed upon their programme there will be little difficulty in securing its acceptance by the Chinese government, which, indeed, is powerless to offer serious opposition to the united demands of the powers.

MERT AND AGREE.  
(THE NEW ASSOCIATED PRESS—P.M.)  
PEKING, Nov. 9.—The foreign ministers met again this morning and virtually agreed upon the points of chief importance. It was decided to leave minor differences for future discussion.

TO UNITE THE ALLIES.  
(THE NEW ASSOCIATED PRESS—A.M.)  
PEKING, Sunday, Nov. 8.—A commission consisting of the senior state officers of each power taking part in the Chinese campaign, is proceeding to Tien-Tsin to discuss the situation between the allied commanders regarding the places to be selected for occupation for the respective forces.

REBELLION WAXING.  
(THE NEW ASSOCIATED PRESS—A.M.)  
HONGKONG, Nov. 8.—Reports from Canton say the East River rebels have moved up the river, and boats are now running from Pak Lo to Hui Chan. It is considered probable that the rebellion will shortly die out. The rebellion is said to have been a sufficient supply of arms. As the rebels demand the execution of the leaders in the East River, placards have been posted throughout the town urging the people to slaughter the rebels if the demands are repressed.

GIFTS COME IN FREE.  
(THE NEW ASSOCIATED PRESS—P.M.)  
WASHINGTON, Nov. 9.—The President has issued an executive order admitting free of duty Christmas presents and souvenirs sent by soldiers in China to friends in the United States. The privilege is the same as was extended to soldiers in the Philippines one year ago.

CHINESE DO NOT RESIST.  
(THE NEW ASSOCIATED PRESS—A.M.)  
TIENTSIN, Oct. 1.—[Associated Press Correspondence.] The diplomatic situation has been somewhat complicated by the Chinese change of attitude. The Chinese have again agreed to the terms of the armistice. It is also stated that the old Viceroy has sent edicts into all parts of Chi Li province, ordering the people to offer no resistance to the allies. As the Associated Press at the time of Li's arrival in Tientsin, he assured Gen. Chaffee that he would use all his power as Viceroy and all his influence to prevent further hostilities. So far, however, the Chinese and German have refused to recognize Li Hung Chang, and the old man remains in the Yamen Viceroy in name only and only recognizes the Chinese government in the peace negotiations with the Russians and Americans.

Some have doubled in order that China may raise money to pay the indemnity. The maritime customs are at present pledged to Russia, Germany and England as security for loans. The amount of this or internal revenue, raised would probably be enough to make periodic payments. It could be turned into the imperial treasury without having first to pass through the rapacious hands of officials. These commissioners appreciate this and profess to think the indemnity can best be paid by increasing the maritime customs.

It is unlikely that the United States and other powers will accept any such proposition. A diplomat at Washington asserts that the best way to obtain the indemnity would be to demand the confiscation of the estates of those who were responsible for the outrages and to require the rich men of China to contribute a proportionate amount.

CONGRESS OF MILITARY MEN.  
TIENTSIN, Oct. 1.—[Associated Press Correspondence.] A congress of military men from eight nations and every branch of service elbow to elbow under actual field conditions, both Peking and Tientsin at present afford a rich field of comparison to military observation of which the officers of the various forces are taking keen advantage. This is especially noticeable of the continental forces, whose staffs are everywhere taking note of equipment, training, and discipline. There are now quartered in this camp what are said to be representative contingents of every military power. It is a military congress as complete as if it were held for display, and the contrast between the forces is very marked. The Chinese, in particular, are showing a very particular interest in the Chinese expeditionary forces.

In equipment and uniform there is apparently little question that the American and British troops are superior. The sober, businesslike khaki is in the foreground. The French and Italian uniforms, while the Germans, otherwise a magnificent and picked body of men, are handicapped by their ill-fitting clothing. By far the most picturesque troops here are the British native regiments, which are dressed in the "Duke of Connaught's Own," and a battalion of Australian volunteer naval reserves. ## YANKEES BEAT THE WORLD.

Spalding on Athletes' Victories at Paris.

Europeans Ambitious to Excel Americans.

Golf Tournament for the Pacific Coast—Footballist Breaks His Neck.

(THE NEW ASSOCIATED PRESS—A.M.)  
NEW YORK, Nov. 8.—Albert G. Spalding, director of sports at the Paris Exposition, has just arrived home from Europe. He believes the international games in Paris will prove a great incentive to athletics in Europe. The victories of the American athletes aroused so much admiration that there is a desire in Europe to develop athletes who can compete with those of this country.

In regard to the criticisms of the French people for animosity toward the "games," said Spalding, "I think it only fair to state that it was not due to any desire to injure our men, but to inexperience in such matters. In the desire to treat all countries equally they have discriminated against America. It was certainly very galling to athletes of other nations to see the Americans win first, second and third places in nearly all scratch events, and when the handicaps were along they fixed the handicaps so that some other country would win."

Spalding heartily favors the formation of an international athletic union which has been proposed. He believes the United States, which is the leading athletic country of the world, should go into the new organization.

YACHTING RUMORS.  
BARR WILL BE DISMISSED.  
(THE NEW ASSOCIATED PRESS—A.M.)  
NEW YORK, Nov. 8.—"Charles" Barr, the successful sailing master of the Columbia, will be dismissed at the end of the year. Barr brought the Vigilant back from England in 1896, and was with Willard in that yacht during the trial races with the Defender. Willard, therefore, was acquainted with Capt. Barr's ability as a sailing master of cup boats.

There is another rumor about skipper. It is that Capt. "Bob" Wright, the sailing master of Vice-Commodore Belmont's Minerva last season, will be the sailing master of the Columbia while she is being used as a trial boat for the new defender. Also that the time rolls around to put the Columbia in commission. C. Oliver Iselin will be found to be again in charge of the new defender. Also that the new defender will be played with bronze, says a Journal and Advertiser correspondent. It is known that the Herreshoffs are partial to this metal. They have experimented with various metals for tensile and torsional strength, and none has been found so satisfactory to Capt. Nat's mind as a smooth bronze which succumbs to the least abrasion.

Capt. Nat spent a large part of last week in the summer at the Columbia. It is understood he has completed his model of the defender and reduced many of his plans to writing. The work of construction, it is rumored, will probably be started within a few weeks.

(THE NEW ASSOCIATED PRESS—P.M.)  
LONDON, Nov. 8.—[By Atlantic Cable.] Dr. Morrison, writing to the Times, said that the Chinese government had asked him to address a communication to Li Hung Chang asking China's intentions regarding Manchuria, and advising her to resume the government of that territory under Russian protection, which he says will be of mutual advantage to China and Russia.

W. S. Parker Drowned in Colombia.

Thought to Have Had a Fortune on Him.

Los Angeles Man Lost in the Andagueda River—Had a Rich Mine.

J. H. Parker of No. 115 West Court street, this city, has just received notice of the death of his father, W. S. Parker, in South America. The deceased was a well-known civil engineer, and had been identified with the building of many lines of railroad, particularly in Texas, and for ten years made his home in this city, living last at No. 923 West Sixth street.

Four years ago Mr. Parker went to South America to manage the affairs of the South American Gold Mining and Dredging Company, in which he was interested with Boston and New York capitalists. The latter confirmed the death of his father was received by J. H. Parker yesterday, from Henry G. Granger, United States Consul at Quibdo, Colombia. Consul Granger makes the statement that on September 13, Mr. Parker was on his way down the Andagueda River, from Bagado to Quibdo, on a raft and alone, and that in some unknown way the raft overturned and its occupant drowned.

Mr. Parker states that he has reason to believe that his father's death was not purely accidental, inasmuch as there is nothing said about the occasion of his solitary trip on the raft, nor as to the nature of his cargo. He says his father was undoubtedly taking down the river the clean-up from the season's work at the mine, which must have been upwards of \$300,000. Young Mr. Parker has spent some years in South America, and is an interpreter, knows the country and its climatic conditions, and he says that the clean-up was taken down the river early in September, in order to escape the floods. He also has private information that leads him to suspect that everything is not right concerning the death of his father.

The deceased was 65 years old, and his son says that his father had been offered \$400,000 for his holdings in the company he represented. Aside from the son in this city, a daughter, Miss Frances Parker, resides in San Francisco.

# OUTLOOK AT NEW YORK.

## Republican Confidence Increasing.

### Crocker is Playing for the Future.

New York City is of Greater Interest to Him Than in the Nation.

BY J. D. WHELFLEY.

NEW YORK, Oct. 29.—Given in this week of the campaign there is a feeling on the surface or to be discerned in the political atmosphere of the city, that the Republican confidence is increasing. The feeling is not a new one, but it is a feeling that has been growing since the late of October it has been apparent that while Mr. Bryan is a powerful force in the campaign, it is not a force that is likely to be a combination of the forces of the country. A Republican leader has been predicted by many, and it is of such a nature as to be a warning to voters.

### WARNING TO VOTERS.

Two Important Circulars of the Republican Congressional Committee.

Sen. James McLaughlin's alert and energetic Congressional Committee has issued two important circulars warning to the voters of the Sixth District.

HEADQUARTERS SIXTH CONGRESSIONAL DISTRICT RE-PUBLICAN COMMITTEE, ROOM 10, HOLLAND STREET HOTEL, NEW YORK, N. Y.

My Dear Sir:—Will you please let me know how many native Californians there are in your precinct? As you probably know, Mr. Graves, the Democratic nominee for Congress, is a Spaniard, and all over the district the people of his race are becoming excited over his candidacy, and from the information we now have it seems that they are going over to his support in a body. You understand how it is when they get started on the race point, and the only way that we can offset it is by getting a corresponding number of votes from our People and Democratic friends, and special effort must be made along these lines, for there is no doubt that Mr. McLaughlin's election is in serious danger on this account.

There are in this district no less than three thousand Spanish voters. Two thousand of these are thought to be in the Republican ticket. If three-fourths or only one-half of those who voted the Republican ticket two years ago should vote for Mr. Graves, and there is no least doubt but that they will, it would more than counterbalance the Democratic majority in this district.

This is a danger that seems to have been overlooked by the Democrats. It is a danger that seems to have been overlooked by the Democrats. It is a danger that seems to have been overlooked by the Democrats. It is a danger that seems to have been overlooked by the Democrats.

Very sincerely yours,  
JAS. CLARKE,  
Chairman Rep. Cong. Com.

**Today a Holiday.**—According to the Civil Code of California, election day is a legal holiday. The City Hall will be closed, except the Public Library, which will be open from 1 p.m. to 5 p.m. All departments in the Courthouse will be closed.

**A Dead Army.**—Fifteen dead rats, swarming with thousands of humming and virulent flies, was the unsavory sight that all day yesterday greeted every passer along West Fourth street, between Spring and Broadway. The dead rats were found in a position contiguous to a fish market.

**Car Hit Chalmers.**—A Chinese vegetable peddler was run down by a Traction car yesterday afternoon at the corner of Pine and Hill streets. He was quite badly hurt, but before medical aid could be procured, a fellow-countryman dumped him into his wagon and carried him off to the Chinese hospital.

**Malicious Frank.**—A busy standing on a vacant lot at the corner of Sixth street and Union avenue yesterday afternoon, the night of October 21, W. J. Kelly, the owner, has reported his loss to the police, who are of the opinion that the rig was taken to help out in a Halloween celebration, and that it will be found some way in the neighborhood.

**Betting Last Night Nearly All One Way—Where to Cast the Ballots.**—The election of the city officers today is expected to be one of the most interesting in the history of the city.

**This is election day.** The polls will be opened at sunrise, 5:30 a.m., and will be closed at 5 p.m.

**This may not be new to many people,** but there may be some who, unless reminded of the fact, would fail to make provision for sufficient time from their daily work to go and vote.

**All of them may not be needed,** but aside from the fact that it is admittedly the duty of every man who has a vote to cast it, the fact that the polls will be open until evening, when the crowds broadcast over the land from this city, will help show the country the importance of Los Angeles, and to remind citizens that the ballot is the most important thing in the life of a citizen.

**The Weather Bureau has promised a perfect day,** clear and warm, and in spite of the fact that there has been some talk of rain, the weather is expected to be perfect.

**It is not a new thing, but the fact that the election is being held on a day when the weather is so perfect, is a good omen for the city.**
